

HORIZON 2020 Marie Skłodowska-Curie Actions

OVERVIEW

ITN - ETN

Innovative Training Networks – European Training Networks

Networks of at least 3 organisations (industry and SME included) from different countries engaged in research training. The networks will be built on a joint research training programme for **early-stage researchers**. Possibility for associated partners to be part of the doctoral training programme.

Funds: Living, mobility, and family allowances for the researchers + contribution to the institution for research and training activities (1800 Euro/month/researcher) + contribution to management and overheads.

Deadline: 9 April 2014

ITN - EID

Innovative Training Networks – European Industrial Doctorates

Networks of at least 2 organisations: **One industrial partner and one academic institution** from different countries engaged in a jointly supervised doctoral programme for **early-stage researchers**. Possibility for associated partners to be part of the doctoral training programme.

Funds: Living, mobility, and family allowances for the researchers + contribution to the institution for research and training activities (1800 Euro/month/researcher) + contribution to management and overheads.

Deadline: 9 April 2014

ITN - EJD

Innovative Training Networks – European Joint Doctorates

At least three academic participants able to provide a PhD, aiming at providing a joint, double or **multiple doctoral degrees**.

Funds: Living, mobility, and family allowances for the researchers + contribution to the institution for research and training activities (1800 Euro/month/researcher) + contribution to management and overheads.

Deadline: 9 April 2014

RISE

Research and Innovation Staff Exchange

Intersectoral or **International** collaboration through research staff exchanges. The activities will consist of secondments between the two sectors and/or between European and Third Countries organisations.

Funds: **Top-up allowance** (2.000 Euro/Researcher/month) to the seconded researchers + contribution to the institution for research activities (1800 Euro/month/researcher) + contribution to management and overheads.

Deadline: 24 April 2014

IF

Individual Fellowships

To enhance the creative and innovative potential of **experienced researchers** wishing to diversify their competences through advanced training, international and intersectoral mobility. IF can be within or outside Europe; IF particularly supports reintegration of researchers from outside Europe

Funds: Living, mobility, and family allowances for the researchers + contribution to the institution for research and training activities (800 Euro/month/researcher) + contribution to management and overheads.

Deadline: 11 September 2014

COFUND

Co-funding of regional, national and international programmes

The co-funding action aims at stimulating regional, national and international programmes to foster excellence in researchers' training, mobility and career development.

Funds: 50% of the researcher allowances and institutional contributions.

Deadline: 2 October 2014
